PREVENT CONFLICTS

Secure garbage and other attractants

The Bear Facts: This is the season when bears are well into their hyper-eating phase of the year. They're all focused on a final push to gain weight for the winter, notably to store a thick layer of fat that they will need for energy and warmth, and for female bears to give birth to and nurse their cubs. Don't let attractants around your home lure bears into conflicts with people. Here are a few tips for the season:

Remove and secure garbage and other attractants including pet food, birdseed and livestock feed. Store these in a secure area such as your basement or an enclosed garage.

Pick fruit as soon as it is ripe. If fruit falls on the ground, pick it up daily. Some fruit can be picked early and ripened indoors.

Remove bird feeders when bears are active.

You can help to create a safer community for people and bears.

Telkwa Fire Rescue - Volunteers Needed!

Being a Member of Telkwa Fire Rescue Doesn't Have to Involve Fire

Of course we are always looking for volunteers who are interested in being a Firefighter, First Responder or with Swift Water or Ice Rescue, but we can also use many others to support those roles. If you live in Telkwa or nearby in the Regional District, come make a difference and join our team to help your neighbours. We are looking for people who have a few hours a month to help us around the fire hall with skills such as accounting, administration, heavy duty mechanics, small engine repair, carpentry, planning community events and many others.

If you are over 18, come by the Fire Hall on Highway 16 on Wednesday nights to see how you can help; or contact Laurence Turney, Fire Chief (chief@telkwafire.com or phone 778-210-0264).

Halloween Fireworks

Come out on Halloween night to the Community Hall and Recreation Fields at 7:30PM for the fireworks show sponsored by Telkwa Fire Rescue and the Village of Telkwa.
