Telkwa Fire Rescue - Volunteers Needed!

**Being a Member of Telkwa Fire Rescue
Doesn't Have to Involve Fire**

Of course we are always looking for volunteers who are interested in being a Firefighter, First Responder or with Swift Water or Ice Rescue, but we can also use many others to support those roles. If you live in Telkwa or nearby in the Regional District, come make a difference and join our team to help your neighbours. We are looking for people who have a few hours a month to help us around the Fire Hall with skills such as accounting, administration, heavy duty mechanics, small engine repair, carpentry, planning community events and many others.

If you are over 18, come by the Fire Hall on Highway 16 on Wednesday nights to see how you can help; or contact Laurence Turney, Fire Chief at either

TELKWA READING CENTRE

TUES , WED, AND THUR 3-5 PM
SATURDAY 2-4 PM (250) 846-9286

The Telkwa Reading Room has some exciting new reads to keep you company during those colder months of intense tea drinking in front of the wood stove. Some literary heavy hitters are back! Dan Brown's Origin, is the latest book featuring the clever Robert Langdon. Stephen King is sure to keep you on your toes with the futuristic, Sleeping Beauties, and the Millenium series continues the Lisbeth Salander saga, in the concisely titled The Girl Who Takes an Eye for an Eye.

Come visit and peruse the Reading Room's copy of the Interior News and stay up to date with events and issues in our area.

We are looking to decorate our "Poet-Tree." Do you have a budding child poet in your home? Haiku, ode, couplet, clean limerick...we would love to display their poems in our Children's area!

"Purple Air" Air Monitor

The Bulkley Valley – Lakes District Airshed Management Society and the Village of Telkwa have partnered on a new air quality monitoring station. The "Purple Air" air monitor is located at the intersection of Hwy 16 and Hankin Ave. in front of the Village Office, and went "live" October 10, 2017.

This air monitor is an inexpensive, high quality particulate air pollution monitor which detects Particulate Matter 2.5 (PM 2.5). The monitor will deliver "real time" data available for all residents to review online at <http://telkwa.cleanairplan.ca/>
